

Hello, I'm **Julien Nicault**

[in linkedin.com/in/jlnnclt](https://www.linkedin.com/in/jlnnclt) | [🐦 @juliennicault](https://twitter.com/juliennicault)

30 years old
Paris
A + B licences

After 10 years of entrepreneurship and development of Internet based projects, I am looking for opportunities to learn new things and take on new challenges.

Experiences

CINEMUR

2013 > 2018
5 years, 7 months

Founder and CEO, head of operations

CINEMUR is a Paris based company specialized in digital services for cinema, television and virtual reality (VR) industries.

Responsibilities: Strategic vision and execution, product design, business development, deal negotiations and pricing, performance analytics and reporting, operational management (*up to 17 people*)

60+ completed projects for Pathé Gaumont, Sony Pictures, TF1 Group, Prisma Media, BNP Paribas, CDiscount, Molotov TV, Warner Bros, Orange, Fnac...

Key websites: hello.cinemur.fr, cinemur.fr, cinevr.io, cinemaspathegaumont.fr

MFG Labs

2011 > 2013
2 years, 3 months

Product manager, developer

Research, design and development of web based data driven applications. Prototyping social web apps. Strong experience with Facebook Platform.

Universal Music

2008
6 months

Web developer

Web developer and project manager. As a side project, I created and sold to Universal Music France a white label streaming music platform which allowed music labels to create Spotify/Deezer like services.

Education

HETIC

2008 > 2011

Engineering and Management Degree

Master degree (*baccalaureate + 5 years*) French degree level 1 (*private school*)

University

2006 > 2008

Technology University Degree

Savoie Technolac University degree in communications and networks (*DUT SRC*)

High school

2004 > 2006

Scientific Baccalaureate (*engineering option*)

Louis Lachenal high school in Annecy, scientific baccalaureate

Skills and knowledges

As entrepreneur and web developer, I learned a lot.

Designing and building great products and partnerships has been the most exciting work for me so far. And my last few years as CEO also gave me experience about how to build a great team, healthy professional relationships as long as reaching the highest level of clients satisfaction.

Personal skills

- Organization and planning
- Creative ideation
- Proactive behavior
- Curiosity
- Problem solving
- Leadership

Technical knowledges

- Restful APIs and JSON
- Database design and SQL
- Front-end web tech (HTML5, CSS3, JS)
- Back-end tech (PHP frameworks, workers, queuing, noSQL, caching, CDN, SSO...)
- iOS and Android platforms
- Amazon Web Services
- Unity3D for VR

Publications and distinctions

I had the chance to write a blog post on the official Facebook developer blog back in 2012 and our first project CINEMUR won some awards. Please find below some information and links:

Apple App Store app of the day for CINEMUR iOS

Guest post on the FB dev blog <https://bit.ly/2Lw>

Winner of best HTML5 webapp at Google TUG <https://bit.ly/2V2qFy5>
